

# F-Series Brush Mower

The F-Series Brush Mowers are the safest of their kind on the market today. Available in three widths (4, 5 and 6 feet) and quickly power through grass, light brush and other undergrowth to create a smooth surface in a field or around job sites. Cutting capacity .5-1".

## Performance

The BrushHound F-Series Flail Mowers are designed to effectively cut and mulch material up to an inch thick when powered by 8-13 gpm, 3000 PSI power unit or more. With both front and rear deflector flaps, projectile throw is virtually eliminated. The F-Series offers three knife configurations. Front-mounted with a universal skid steer style mounting plate. (Optional mini skid steer mounts are also available at no additional charge.)
